18<sup>th</sup> November 2008

Dear Parents and Carers,

## Help us sow the seeds for a greener tomorrow

I'm happy to tell you that Garforth Green Lane has joined *Generation Green*, a new programme from British Gas to help our children do their bit to make the planet greener.

### Greener at school

During the year, we will be undertaking green tasks to encourage us to save energy and cut our carbon emissions. Tasks can be as simple as appointing a lights monitor for each classroom or as complex as measuring our carbon footprint (this tells us just how green Green Lane is today).

### Greener in the classroom

As well as tasks, *Generation Green* gives staff a wide choice of teaching materials we hope will make learning about green issues even more fun and inspire children to take an active role in protecting the environment.

### Greener at home

Any support you can give us will be very welcome. For example, you could go along with your children when they ask you to do green things at home. Small actions like switching off lights to save energy can make a big difference. Your own green actions could even earn Leaves you can donate to Green Lane to help us reach our goal. Getting household bills online to save paper is just one simple way to get Leaves. To find out more go to the *Generation Green* website

## [www.generationgreen.co.uk](http://www.generationgreen.co.uk)

In the **FAMILY** and **FRIENDS** section, you can get a free energy savers report and donate your leaves to benefit the school.

If you have any questions, please let me know.

Thank you for your support. Here's to a greener tomorrow.

Yours sincerely  
Mrs. T. Prince
